Freedom of Information Act
Office

Mr. John Avila
15670 Tetely St.
Hacienda Heights, CA 91745

Dear Mr. Avila:

This letter acknowledges receipt of your Privacy Act and Freedom of Information Act (PA/FOIA) request, dated and received on October 25, 2026, by the U.S. Army Special Operations Command (USASOC). You seeking records of HSC, 4TH Battalion, 7th Special Forces Group (Airborne), the battalion S6 and G6, the USASOC FOIA/Privacy Act Office, and any garrison network account management records in USASOC's possession, including records provided by SITEC or by the garrison Network Enterprise Center and held by USASOC, and provide, separately for NIPRNet and for SIPRNet. Specifically, you requested the following records.

Account provisioning records for my garrison network account or accounts, including any System Authorization Access Request (SAAR), DD Form 2875, account creation form, or equivalent provisioning record, showing the account name or user ID, the account type, the privilege level assigned, and the authorizing official, if shown.

Any record showing the privilege level, user type, or access level assigned to my garrison network account during the period covered, including any record distinguishing a standard user / end user account from an administrator, privileged user, local administrator, domain administrator, network administrator, or system administrator account, and any record showing whether I held any elevated privilege at any time during the period.

Any record showing a grant, denial, change, suspension, or removal of elevated or administrator privileges for my garrison network account during the period covered, including the date of the change, the privilege changed, and the authorizing official, if shown.

Any record showing the Active Directory groups, security groups, distribution groups, or other account groups to which my garrison network account was assigned during the period covered, and any record showing a change to that group membership, including the date of the change,
if shown.

Any record showing the shared-drive, network-share, or I-drive permissions assigned to my garrison network account during the period covered, including any record showing which shared drives, folders, or shares my account was permitted to access, and, if the battalion commander folder on the shared drive was separately permissioned, any record showing the permissions assigned to my account for that folder.

Any SITEC, Network Enterprise Center, S6, or G6 account-management record in USASOC's possession concerning my garrison network account during the period covered, including any help-desk ticket, account modification request, or account audit record that documents my account's privilege level, group membership, or shared-drive permissions.

Lastly, any account deprovisioning, disablement, or deletion record for my garrison network account at or after my separation on December 13, 2018, if that record documents the privilege level or group membership held at deprovisioning.

This request will be processed under FOIA case number, U.S. Army Special Operations Command FOIA **Case #27-057.** Your request will be processed in accordance with the procedural requirements of Army Regulation 25-55, Department of the Army Freedom of Information Act Program. Based on general fairness to the public, the FOIA establishes a queuing concept, first in, first out, on an easy-hard basis, and controlled in response queues. It is likely that processing your request may exceed the statutory 20-working-days requirement. The current estimated date of completion is March 15, 2027.

If you have any questions or concerns, you may contact me at (910) 432-9233 or stephanie.l.osborne.civ@socom.mil.

Sincerely,

Stephanie Osborne
